

Strategic Acquisitions and Expansions

2010 - 19

In 2010, National Pump Company was acquired, bringing six new locations serving the Irrigation, Municipal, Industrial and Oil and Gas markets.

Patterson Pump Ireland expanded to a newly built 40,000 square-foot production, test and administration facility in Mullingar, Ireland in 2015. This facility doubled the square footage of the previously rented facility, expanding the testing and manufacturing capabilities.

In 2012, American Turbine was acquired, adding to the National Pump Company acquisition. In 2014, Bayou City Pump was acquired, allowing penetration into the inland liquid petroleum and chemical transport markets.

Also in 2012, Pumptron was acquired and was renamed Gorman-Rupp Africa, with facilities in Johannesburg, Durban and Cape Town, South Africa.

In 2015, Hydro+ and Hydro+ Rental were acquired in Namur, Belgium to expand the Company's European presence.

In 2015, Gorman-Rupp Europe B.V. consolidated its northern and southern operating facilities into a new, larger facility in Culemborg, The Netherlands, providing more efficient access to Rotterdam's large international commercial port facilities.

The Permanent Canal Closures & Pumps Project was completed in 2017, reducing the risk of 100-year level storm surges in New Orleans. Seventeen Patterson pumps, capable of moving up to 1,000,000 gallons per minute each, were installed in the New Orleans area.

Annual Sales

2019 **\$398,179,000**
