

INVESTOR PRESENTATION

October 2025

The Pump People®

FORWARD-LOOKING STATEMENTS

In connection with the “safe harbor” provisions of the Private Securities Litigation Reform Act of 1995, The Gorman-Rupp Company provides the following cautionary statement: This presentation contains various forward-looking statements based on assumptions concerning The Gorman-Rupp Company’s operations, future results and prospects. These forward-looking statements are based on current expectations about important economic, political, and technological factors, among others, and are subject to risks and uncertainties, which could cause the actual results or events to differ materially from those set forth in or implied by the forward-looking statements and related assumptions. These include statements regarding estimates of future earnings and cash flows. Other uncertainties include, but are not limited to, general economic conditions, supply chain conditions and any related impact on costs and availability of materials, retention of supplier and customer relationships and key employees, and the ability to service and repay indebtedness. Other risks and uncertainties that may materially affect Gorman-Rupp are described from time to time in its reports filed with the Securities and Exchange Commission, including Forms 10-K, 10-Q, and 8-K. Except to the extent required by law, Gorman-Rupp does not undertake and specifically declines any obligation to review or update any forward-looking statements or to publicly announce the results of any revisions to any of such statements to reflect future events or developments or otherwise.

INVESTMENT HIGHLIGHTS

Leading designer and manufacturer of pumps and pump systems with over 90 years of experience

Reputation for quality products and outstanding customer first service is a competitive advantage

Primarily U.S. based supply chain and manufacturing

Highly diversified markets and products with significant presence in Fire Suppression, Industrial, Agriculture, Construction, Municipal, Petroleum and OEM markets

Recognized family of brands through product development and acquisitions

Well established and knowledgeable domestic and international distributors

Strong dividend track record over 75 years with 53 consecutive years with increases

Opportunities for growth through market share expansion, industry growth, new product development, infrastructure spending and acquisitions

The Pump People®

INDUSTRY OVERVIEW

- Pumps touch our daily lives: drinking water, wastewater, sewage, irrigation, appliance cooling, transportation, fuel, industrial products, chemicals, fire suppression, construction, HVAC
- Many specialized pumps – due to many specialized applications
- Very fragmented industry with many niche-oriented players
- Many competitors are divisions of larger companies
- Increasing worldwide demand for water and other fluid-handling equipment
- Water infrastructure spend includes pumps
- General pricing stability due to extent of value-added products and mature competition

COMPANY HISTORY

1933 - Company founded with \$1,500 initial – and only – capital investment

1956 - First international expansion – established Canadian manufacturing facility

1968 - Publicly listed (American Stock Exchange → NYSE MKT → NYSE in 2017)

1988 - Acquired Patterson Pump Company, manufacturer of large volume pumps for sewage, flood control and fire suppression

1998 - Patterson Pump Ireland established for manufacture and sale of fire pumps in Europe

2010 - Acquired National Pump Company, submersible vertical turbine manufacturer serving the agricultural irrigation, municipal and petroleum markets

2002 - 2016 - Multiple smaller international and domestic acquisitions

2022 - Acquisition of Fill-Rite, leading provider of fixed and portable fuel transfer pumps, chemical transfer pumps, meters, and accessories

2024 - Total of 75 years of cash dividends and 52 consecutive years of increases

GLOBAL OPERATIONS

The Pump People®

Mission Statement

"To provide a quality product, competitively priced, delivered on time, backed by reliable service, at a profit that provides an equitable return to our shareholders, as well as providing our employees with competitive wages and benefits."

- J.C. Gorman and Herb Rupp - 1933

OPERATING MODEL

Philosophy & Culture

- Quality products and strong reputations
- Customer focus – taking care of customers
- Customer education
- Product availability
- Available and reasonably priced repair parts
- People – training, career development, health & safety, profit sharing
- Active in communities

Corporate

- Acquisitions
- Capital Allocation
- Information Technology
- Employee Benefits
- Treasury
- Legal
- Insurance / Risk Management
- External Reporting & Compliance
- Investor Relations

Shared

- Human Resources
- Workforce Development
- Purchasing
- Sustainability
- Customer Facing Technology
- Strategic Planning

Division (Closest to Customer)

- Sales, Customer Service and Distribution Relationships
- Marketing / Advertising
- Product Development / Engineering
- State of the Art Manufacturing & Testing Facilities

PRODUCT DIVERSITY

MARKET DIVERSITY – BY DESIGN

Gorman-Rupp Company Markets

MARKETS

- Industrial/Chemicals & HVAC Supply (19% - 21%)
- Fire Suppression (19% - 22%)
- Agriculture & Irrigation Supply (14% - 16%)
- Municipal Water / Wastewater (12% - 15%)
- Construction & Dewatering (11% - 13%)
- OEM (6% - 8%)
- Refined Petroleum (2% - 4%)

REPAIR PARTS (9% - 12%)

INDUSTRIAL / CHEMICALS & HVAC SUPPLY (19% - 21%)

- Dependable pumps for manufacturing applications
- Pumps for moving waste streams, chemicals, viscous materials, and heating/cooling fluids
- HVAC pump market share expanding

MARKET DRIVERS: *Industrial construction, expansion and remodeling*

FIRE SUPPRESSION (19% - 22%)

- Booster pumps for sprinkler systems in large commercial structures
- Fire pumps are UL/FM Global approved and an industry standard
- Manufacturing facility in Ireland for increased capacity
- Domestic and international market leader

MARKET DRIVERS: *Commercial and industrial construction*

AGRICULTURE & IRRIGATION (14% - 16%)

- Irrigation pumps - strategically located branch locations across the U.S.
- Pumps for fuel transfer, animal waste, pit agitation, and liquid fertilizer

MARKET DRIVERS: *Grower cash flows from farm commodity prices and weather conditions*

CONSTRUCTION & DEWATERING (11% - 13%)

- Self-priming and vacuum prime-assisted centrifugal pumps for dewatering foundations, quarries, ditches and streams
- Diaphragm pumps to remove mud and sand-laden water at construction sites
- Rotary vane fuel transfer pumps, meters, and accessories for contractors
- Support of fracking industry

MARKET DRIVERS: *Infrastructure and other exterior construction; commercial rental activity and inventory turnover; mining*

MUNICIPAL WATER & WASTEWATER (12% - 15%)

- Pumps and wastewater stations
- Pre-engineered turn-key systems
- Custom design capabilities, above and below ground installation
- Booster pumps and deep-well line shaft pumps provide clean drinking water
- Municipal water and sewer funding is typically service fee based, not tax based
- Over 50 years of providing wastewater pumping stations

MARKET DRIVERS: *Commercial and residential construction; infrastructure build and re-build*

LARGE CUSTOM MUNICIPAL PUMPS

- Flood control pumps capable of pumping up to one million gallons per minute
 - Numerous coastal flood protection installments
- Storm water management
- Wetland restoration

MARKET DRIVERS: *Infrastructure build and re-build; natural disasters*

OEM

- Pump supplier to a variety of manufacturers
- Range of applications from transportation, appliances, food processing, chemical processing and electronics
- Military applications

MARKET DRIVERS: Growth and new products in numerous commercial, medical and retail sectors; power generation demands

REFINED PETROLEUM (2% - 4%)

- Leader in aircraft refueler market
- Refinery and pipeline applications
- Vertical turbine pumps for barge loading and unloading
- American Petroleum Institute certified pumps
- Safe bulk handling of volatile fuels

MARKET DRIVERS: *Petroleum refinery production, storage and distribution; petroleum transportation expansion*

REPAIR PARTS

- Most parts ship within 24 hours
- Consolidated 9% - 12%
- Large range by market and application – from 30% for Construction/Industrial to minimal for Fire Suppression
- Approximately 20% adjusted for markets with minimal repairs

HOW LONG DO PUMPS LAST?

Many Variables by Application → **The Right Pump for the job!**

Abrasive	Wear	Corrosive	Solids	Clean Liquids
Fracking	Construction Rental	Industrial	Municipal Wastewater	Fire Suppression Fuel Handling
< 1 Year	5 Years	10 Years	15 Years	20+ Years

INTERNATIONAL SALES

- International sales represent approximately 25% of total company sales annually

2024 International Sales

Total International Sales Mix

SALES CHANNELS

Sales Channels

- Most distribution is exclusive by geographic territory and market
- No single distributor makes up > 5% of sales
- Expectations of distribution:
 - Physical location
 - Stock inventory
 - Service capabilities
 - Trained sales team
 - Sufficient capital and focus on GR
- Retail & E-commerce sales are primarily related to Fill-Rite

6.40% Notes	30.0	30.0	Due May 2031, 6.4%
Total Debt	<u>\$325.8</u>	<u>\$370.8</u>	

- \$45 million reduction in debt YTD 2025
- Debt refinancing May 31, 2024
 - Upsized, amended and extended Senior Term Loan
 - Amended and extended Credit Facility
 - Issued \$30.0 million of new 6.40% Notes with 7-year term
 - Retired the existing \$90.0 million Subordinated Credit Facility
 - 2024 results included \$1.8 million prepayment penalty, \$1.3 million in one-time transaction related expenses, and a \$4.4 million non-cash charge to write off previously deferred unamortized transaction fees

CAPITAL ALLOCATION

Historical

Current Priorities

- Our capital expenditures are expected to be ~\$20mm per year
- We expect to maintain our dividend practices while reducing our leverage
- Continue to focus on deleveraging
 - Leverage as of September 30, 2025 was 2.4X
- Once we delever, acquisitions will remain an important part of our growth strategy, and we will monitor opportunities to complement our existing businesses or expand our core competencies
- We expect to maintain ample liquidity for our operations, including cash on the balance sheet and a \$100mm revolving credit facility

HISTORY OF INCREASING DIVIDENDS

- 303 Consecutive quarters of cash dividends
- 53 Consecutive years of increased cash dividends
- **Among Top 50 U.S. Public Companies**
- Current annualized rate \$0.76 per share

STRATEGIC PILLARS

PILLARS FOR GROWTH

“We take care of our customers or someone else will”

High-Performing Culture

- Focus on customers
- Profit sharing
- Employee development
- Strong safety record
- Community involvement
- Continuous improvement
- Strong corporate governance

Organic Growth

- Expand market share
- Benefit from infrastructure spending
- Capitalize on U.S. centric supply chain
- New product development
- Customer training and education
- International growth

Operational Excellence

- High quality products
- Product availability
- Highly trained distribution network
- On-going capital investment & automation
- Working capital management
- Customer facing technology
- Industry leading technical expertise

Acquisitions

- Pumps, pumping related equipment and systems
- Leading brands/positions in niche markets
- U.S., Europe

HIGH-PERFORMING CULTURE

High-
Performing
Culture

Organic
Growth

Acquisitions

Operational
Excellence

- Employees empowered to take care of customers
- Profit sharing at all levels of the organization drives owner like behavior
- Employee development and training results in promote-from-within culture and leads to long tenure employees – average employee has over 10 years experience
- Strong safety record – ongoing investment in safety awareness and initiatives
- Active involvement in communities – employer of choice in many communities we operate in
- Continuous Improvement program at all locations
- Strong Corporate Governance

EXPAND MARKET SHARE

- High value of retained customers – service, repairs and replacements
- Well positioned for infrastructure opportunities:
 - ❑ Replacement/upgrades to aging U.S. infrastructure
 - ❑ Infrastructure bill investment in water, wastewater and flood control
 - ❑ Increased demand for flood control and storm water management
- Capitalize on U.S. centric supply chain
- On-going investment in R&D – history of innovation
- Fill-Rite expanding market share through retail and ecommerce channels
- Training and Education – employees, distribution network, customers

NEW PRODUCT DEVELOPMENT

Organic
Growth

Operational
Excellence

High
Performing
Culture

Acquisitions

- Industry leading team of experienced engineers providing solutions to complex problems through project-specific engineering and new product development
- New products focused on:
 - Continued advancements in challenging applications like clogged sewage systems or abrasive materials
 - Advancements in pump efficiency, reduced emissions and alternative power sources

CUSTOMER TRAINING AND EDUCATION

INTERNATIONAL GROWTH

Organic
Growth

Operational
Excellence

High
Performing
Culture

Acquisitions

- Well positioned international facilities provide for local customization
- Capacity for growth leveraging existing GRC footprint and expanding distribution network

Gorman-Rupp Canada

Gorman-Rupp Africa

Gorman-Rupp Europe

Gorman-Rupp Belgium

Patterson Pump Ireland

- Capitalize on favorable market drivers
 - Population growth and urbanization increasing infrastructure needs
 - Accelerating need for water recycling and water & wastewater treatment systems
 - Increasing industrial and agricultural needs
 - Increasing international regulations
- Expand existing distribution network in Europe, Africa, Middle East, South America and Australia
- Continue to focus on distributor education and training
- Leverage Ireland facility and Patterson's leading brand in fire pumps
- Fill-Rite primarily focused on North American today, opportunity for international expansion

OPERATIONAL EXCELLENCE

Operational
Excellence

Acquisitions

Organic
Growth

High-
Performing
Culture

- High quality products – designed, engineered, manufactured, and tested
 - We hold #1 market share positions in many of the markets where we operate
- Well established and knowledgeable distribution network
- Sales, customer service, and product development handled at the division level
- Over two million square feet of design, manufacturing and distribution space worldwide, with capacity for growth
- Regular investment in machinery & equipment, including automation, that improve efficiency and expand capacity
- ISO Certified 9001, 14001 – GR Pumps USA, Patterson, National Pumps and GR Industries
- State of the art test labs allow difficult field conditions to be duplicated in-house
- Strategically stock inventory to meet customer demand, including emergency needs
- Ongoing improvement of customer facing technology with ability to research, configure and order
- Industry leading technical expertise

HISTORY OF GROWTH THROUGH ACQUISITIONS

- Gorman-Rupp has successfully grown through acquisitions
- Approach to acquisitions remains disciplined and selective

Acquisitions since 2010:

Year	Company	Locations	Key Markets
2010	National Pump Company	AZ, CA, TX, MS, FL	Agriculture, Municipal, Petroleum, Industrial
2012	American Turbine	TX, CA	Agriculture
2012	Pumptron	Johannesburg, South Africa	Municipal, Industrial
2015	Hydro & Hydro+	Namur, Belgium	Municipal, Industrial, Construction
2016	Morrison	FL	Municipal, Flood Control
2022	Fill-Rite	IN and KS	Agriculture, Construction, Industrial

DISCIPLINED ACQUISITION CRITERIA

The Pump People®

Scott A. King, President and Chief Executive Officer

Scott was promoted to Chief Executive Officer in January 2022 in addition to his role as President. He served as President and Chief Operating Officer from January 2021 to December 2021. Prior to that he was Vice President and Chief Operating Officer since April 2019 and was previously Vice President of Operations. He was elected to the Board of Directors for The Gorman-Rupp Company in 2021. In 2004, he joined the Gorman-Rupp Pumps USA division as Manufacturing Manager and progressed through multiple positions including Director of Manufacturing, and General Manager.

Mr. King completed his Bachelor of Science degree in Mechanical Engineering from the University of Minnesota in 1996 and Masters in Business Administration from the University of Michigan in 2002. In addition, Mr. King is active in his community. He is the past President of the Rotary Club of Mansfield, OH and a Board member of the Club's Foundation; past President of the Regional Manufacturing Coalition; and past Chairman of the Board of Directors for the Hydraulic Institute.

James C. Kerr, Executive Vice President and Chief Financial Officer

Jim joined the company in July 2016. Prior to joining The Gorman-Rupp Company, Mr. Kerr served for nine years as the Chief Financial Officer for a retail chain with over \$2 billion in annual sales. Mr. Kerr has served in various financial leadership positions with several multi-billion dollar companies, primarily in the consumer products sector. Prior to that, Jim had experience in public accounting as an Audit Manager with Arthur Andersen & Co. Mr. Kerr's experience includes working with both public and privately held companies.

Mr. Kerr has experience in strategic planning, profit improvement, mergers & acquisitions, financing, risk management and information systems planning and implementation. Jim holds a Bachelors Degree in Accounting from Baldwin Wallace University.

Ronald F. Stoops, Vice President of Finance

Ron was promoted to Vice President of Finance in January 2025. He joined the company in July 2020 as a Director of Financial Reporting managing financial reporting, strategic planning, investor relations, mergers & acquisitions, and income tax compliance. Prior to joining The Gorman-Rupp Company, Ron was employed as an SEC Reporting Manager for Mettler Toledo, a publicly held multinational manufacturer with over \$3 billion in annual sales. Prior to that, Ron had experience in public accounting as an Audit Senior Manager with KPMG working with both public and privately held companies. Ron holds a Bachelor's Degree in Accounting from The Ohio State University.

APPENDIX

The Gorman-Rupp Company Non-GAAP Measures

This presentation includes certain non-GAAP financial data and measures such as adjusted earnings, adjusted earnings per share, and adjusted earnings before interest, taxes, depreciation and amortization (“Adjusted EBITDA”). Adjusted earnings is earnings excluding the write-off of unamortized previously deferred debt financing fees, refinancing costs, and facility optimization costs. Adjusted earnings per share is earnings per share excluding the write-off of unamortized previously deferred debt financing fees per share, refinancing costs per share, and facility optimization costs per share. Adjusted earnings before interest, taxes, depreciation and amortization is net income (loss) excluding interest, taxes, depreciation and amortization, adjusted to exclude the write-off of unamortized previously deferred debt financing fees, refinancing costs, facility optimization costs, and non-cash LIFO expense. Management utilizes these adjusted financial data and measures to assess comparative operations against those of prior periods without the distortion of non-comparable factors. The inclusion of these adjusted measures should not be construed as an indication that the Company’s future results will be unaffected by unusual or infrequent items or that the items for which the Company has made adjustments are unusual or infrequent or will not recur. Further, the impact of the LIFO inventory costing method can cause results to vary substantially from company to company depending upon whether they elect to utilize LIFO and depending upon which method they may elect. The Gorman-Rupp Company believes that these non-GAAP financial data and measures also will be useful to investors in assessing the strength of the Company’s underlying operations and liquidity from period to period. These non-GAAP financial measures are not intended to replace GAAP financial measures, and they are not necessarily standardized or comparable to similarly titled measures used by other companies. Provided later in this presentation is a reconciliation of adjusted earnings, adjusted earnings per share, and adjusted EBITDA to their corresponding GAAP financial measures, which includes a description of actual adjustments made in the current period and the corresponding prior period.
